

§ 1466.33

undertaken under the contract, and collect information necessary to evaluate the conservation practice performance, specified in the contract. The NRCS representative shall make an effort to contact the participant prior to the exercising this provision.

§ 1466.33 Equitable relief.

(a) If a participant relied upon the advice or action of any authorized NRCS representative and did not know, or have reason to know, that the action or advice was improper or erroneous, NRCS may accept the advice or action as meeting program requirements and may grant relief, to the extent it is deemed desirable by NRCS, to provide a fair and equitable treatment because of the good-faith reliance on the part of the participant. The financial or technical liability for any action by a participant that was taken based on the advice of a NRCS certified non-USDA TSP is the responsibility of the certified TSP and will not be assumed by NRCS when NRCS authorizes payment. Where a participant believes that detrimental reliance on the advice or action of a NRCS representative resulted in an ineligibility or program violation, but the participant believes that a good faith effort to comply was made, the participant may request equitable relief under § 635.3 in chapter VI of this title.

(b) If, during the term of an EQIP contract, a participant has been found in violation of a provision of the EQIP contract, the O&M agreement, or any document incorporated by reference through failure to fully comply with that provision, the participant may be eligible for equitable relief under § 635.4 in chapter VI of this title.

§ 1466.34 Offsets and assignments.

(a) Except as provided in paragraph (b) of this section, any payment or portion thereof to any person, joint venture, legal entity or tribe shall be made without regard to questions of title under State law and without regard to any claim or lien against the crop, or proceeds thereof, in favor of the owner or any other creditor except agencies of the U.S. Government. The regulations governing offsets and withholdings found at part 1403 of this

7 CFR Ch. XIV (1–1–10 Edition)

chapter shall be applicable to contract payments.

(b) EQIP participants may assign any payments in accordance with part 1404 of this chapter.

§ 1466.35 Misrepresentation and scheme or device.

(a) A person, joint venture, legal entity or tribe that is determined to have erroneously represented any fact affecting a program determination made in accordance with this Part shall not be entitled to contract payments and must refund to NRCS all payments, plus interest determined in accordance with part 1403 of this chapter.

(b) A producer who is determined to have knowingly:

(1) Adopted any scheme or device that tends to defeat the purpose of the program;

(2) Made any fraudulent representation;

(3) Adopted any scheme or device for the purpose of depriving any tenant or sharecropper of the payments to which such person would otherwise be entitled under the program; or

(4) Misrepresented any fact affecting a program determination, shall refund to NRCS all payments, plus interest determined in accordance with 7 CFR 1403, received by such producer with respect to all contracts. The producer's interest in all contracts shall be terminated.

(c) In accordance with § 1466.26(e), NRCS may determine the producer ineligible for future conservation programs funding.

§ 1466.36 Environmental credits for conservation improvements.

NRCS recognizes that environmental benefits will be achieved by implementing conservation practices funded through EQIP, and environmental credits may be gained as a result of implementing activities compatible with the purposes of an EQIP contract. NRCS asserts no direct or indirect interest on these credits. However, NRCS retains the authority to ensure that operation and maintenance (O&M) requirements for EQIP-funded improvements are met, consistent with §§ 1466.21 and 1466.22. Where activities may impact

Commodity Credit Corporation, USDA

§ 1467.2

the land under an EQIP contract, participants are highly encouraged to request an O&M compatibility determination from NRCS prior to entering into any credit agreements.

PART 1467—WETLANDS RESERVE PROGRAM

Sec.

AUTHORITY: 16 U.S.C. 3837 *et seq.*

SOURCE: 74 FR 2328, Jan. 15, 2009, unless otherwise noted.

§ 1467.1 Applicability.

(a) The regulations in this part set forth the policies, procedures, and requirements for the Wetlands Reserve Program (WRP) as administered by the Natural Resources Conservation Service (NRCS) for program implementation.

(b) The Chief, NRCS, may implement WRP in any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, and the Commonwealth of the Northern Mariana Islands.

§ 1467.2 Administration.

(a) The regulations in this part will be administered under the general supervision and direction of the Chief.

(b) The Chief is authorized to modify or waive a provision of this part if the

Chief deems the application of that provision to a particular limited situation to be inappropriate and inconsistent with the environmental and cost-efficiency goals of the WRP. This authority cannot be further delegated. The Chief may not modify or waive any provision of this part that is required by applicable law.

(c) The State Conservationist will seek advice from the State Technical Committee on the development of the geographic area rate caps of compensation for an easement, a priority ranking process, and related policy matters.

(d) NRCS may delegate at any time easement management, monitoring, and enforcement responsibilities to other Federal or State agencies that have the appropriate authority, expertise, and technical and financial resources, as determined by NRCS to carry out such delegated responsibilities.

(e) NRCS may enter into cooperative agreements with Federal or State agencies, conservation districts, and private conservation organizations to assist NRCS with program implementation, including the provision of technical assistance.

(f) NRCS shall consult with the U.S. Department of the Interior's Fish and Wildlife Service (FWS) at the local level in determinations of land eligibility and as appropriate throughout the program implementation process. NRCS may consult Federal or State agencies, conservation districts, or other organizations in program administration. No determination by these agencies or organizations shall compel NRCS to take any action which NRCS determines will not serve the purposes of the program established by this part.

(g) The Chief may allocate funds for purposes related to: Encouraging enrollment by historically underserved producers as authorized by 16 U.S.C. 3844; special pilot programs for wetland management and monitoring; acquisition of wetland easements with emergency funding; cooperative agreements with other Federal or State agencies for program implementation; coordination of easement enrollment across State boundaries; coordination of the development of conservation plans; or,

for other goals of the WRP found in this part. NRCS may designate areas as conservation priority areas where environmental concerns are especially pronounced and to assist landowners in meeting nonpoint source pollution requirements and other conservation needs.

§ 1467.3 Definitions.

The following definitions are applicable to this part:

30-year Contract means a contract that is for a duration of 30 years and is limited to acreage owned by Indian Tribes.

Acreage Owned by Indian Tribes means lands held in private ownership by an Indian Tribe or individual Tribal member and lands held in trust by a native corporation, Tribe or the Bureau of Indian Affairs (BIA).

Activity means an action other than a conservation practice that is included in the WRPO or restoration cost-share agreement, as applicable, and that has the effect of alleviating problems or improving treatment of the resources, including ensuring proper management or maintenance of the wetland functions and values restored, protected, or enhanced through an easement, contract, or restoration cost-share agreement.

Agreement means the document that specifies the obligations and rights of NRCS and any person or legal entity who is participating in the program.

Agricultural commodity means any agricultural commodity planted and produced in a State by annual tilling of the soil, including tilling by one-trip planters; or sugarcane planted and produced in a State.

Beginning Farmer or Rancher means an individual or legal entity who has not operated a farm or ranch, or who has operated a farm or ranch for not more than 10 consecutive years. This requirement applies to all members of a legal entity, and who will materially and substantially participate in the operation of the farm or ranch. In the case of an individual, individually or with the immediate family, material and substantial participation requires that the individual provide substantial day-to-day labor and management of the farm or ranch, consistent with the

practices in the county or State where the farm is located. In the case of a legal entity or joint operation, material and substantial participation requires that each of the members provide some amount of the management, or labor and management necessary for day-to-day activities, such that if each of the members did not provide these inputs, operation of the farm or ranch would be seriously impaired.

Chief means the Chief of the Natural Resources Conservation Service or the person delegated authority to act for the Chief.

Commenced conversion wetland means a wetland or converted wetland for which the Farm Service Agency has determined that the wetland manipulation was contracted for, started, or for which financial obligation was incurred before December 23, 1985.

Conservation district means any district or unit of State or local government formed under State or territorial law for the express purpose of developing and carrying out a local soil and water conservation program. Such district or unit of government may be referred to as a “conservation district,” “soil conservation district,” “soil and water conservation district,” “resource conservation district,” “natural resource district,” “land conservation committee,” or a similar name.

Conservation practice means a specified treatment, such as a vegetative, structural, or land management practice, that is planned and applied according to NRCS standards and specifications.

Conservation Reserve Program (CRP) means the program administered by the Commodity Credit Corporation pursuant to 16 U.S.C. 3831–3836.

Contract means the legal document that specifies the obligations and rights of NRCS and any person or legal entity accepted to participate in the program. A WRP contract is an agreement for the transfer of assistance from NRCS to the participant for conducting the prescribed program implementation actions.

Converted wetland means a wetland that has been drained, dredged, filled,

leveled, or otherwise manipulated (including any activity that results in impairing or reducing the flow, circulation, or reach of water) for the purpose, or to have the effect of, making the production of an agricultural commodity possible if such production would not have been possible but for such action; and before such action such land was wetland; and such land was neither highly erodible land nor highly erodible cropland.

Cost-share payment means the payment made by NRCS to a participant to carry out conservation practices and to achieve the protection of wetland functions and values, including necessary activities, as set forth in the Wetlands Reserve Plan of Operations (WRPO).

Easement means a reserved interest easement, which is an interest in land defined and delineated in a deed whereby the landowner conveys all rights, title, and interests in a property to the grantee, but the landowner retains those rights, title, and interests in the property which are specifically reserved to the landowner in the easement deed.

Easement area means the land encumbered by an easement.

Easement payment means the consideration paid to a landowner for an easement conveyed to the United States under the WRP, or the consideration paid to an Indian Tribe or tribal members for entering into 30-year contracts.

Easement Restoration Agreement means the agreement used to implement the Wetland Restoration Plan of Operations for projects enrolled through the permanent easement, 30-year easement, or 30-year contract enrollment options.

Farm Service Agency (FSA) is an agency of the United States Department of Agriculture.

Fish and Wildlife Service (FWS) is an agency of the United States Department of the Interior.

Historically Underserved Producer means a beginning, limited resource, or socially disadvantaged farmer or rancher.

Indian Tribe means any Indian tribe, band, nation, or other organized group or community, including any Alaska

Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688, 43 U.S.C. 1601 *et seq.*), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Landowner means a person or legal entity having legal ownership of eligible land. Landowner may include all forms of collective ownership including joint tenants, tenants in common, and life tenants. The term landowner includes trust holders of acreage owned by Indian Tribes.

Lands substantially altered by flooding means areas where flooding has created wetland hydrologic conditions which, with a high degree of certainty, will develop wetland soil and vegetation characteristics over time.

Legal entity means an entity that is created under Federal or State law and that owns land or an agricultural commodity; or produces an agricultural commodity.

Limited Resource Farmer or Rancher means a person with direct or indirect gross farm sales not more than \$100,000 in each of the previous two years (to be increased to adjust for inflation using Prices Paid by Farmer Index as compiled by National Agricultural Statistical Service (NASS)), and who has a total household income at or below the national poverty level for a family of four, or less than 50 percent of county median household income in each of the previous two years (to be determined annually using U.S. Department of Commerce data).

Maintenance means work performed to keep the enrolled area functioning for program purposes for the duration of the enrollment period. Maintenance includes actions and work to manage, prevent deterioration, repair damage, or replace conservation practices on enrolled lands, as approved by NRCS.

Natural Resources Conservation Service (NRCS) is an agency of the United States Department of Agriculture, including when NRCS carries out program implementation using the funds, facilities, or authorities of the Commodity Credit Corporation (CCC).

Option agreement to purchase means the legal document that is the equivalent of a real estate option contract for purchasing land. The landowner signs the option agreement to purchase, which is authorization for NRCS to proceed with the easement acquisition process, and to incur costs for surveys, where applicable, title clearance and closing procedures on the easement. The option becomes a contract for sale and obligates CCC funding after it is executed by NRCS and transmitted to the landowner.

Participant means a person or legal entity who has been accepted into the program and who is receiving payment or who is responsible for implementing the terms and conditions of an option to purchase agreement, 30-year contract, or restoration cost-share agreement, and the associated WRPO.

Permanent easement means an easement that lasts in perpetuity.

Person means a natural person, a legal entity, or an Indian Tribe, but does not include governments or their political subdivisions.

Prairie Pothole Region means the counties designated as part of the Prairie Pothole National Priority Area for the Conservation Reserve Program (CRP) as of June 18, 2008.

Private land means land that is not owned by a governmental entity, and includes acreage owned by Indian Tribes, as defined in this Part.

Restoration Cost-Share Agreement means the legal document that describes the rights and obligations of participants who have been accepted to participate in WRP restoration cost-share enrollment option that is used to implement conservation practices and activities to protect, restore, or enhance wetlands values and functions to achieve the purposes of the program. The restoration cost-share agreement is an agreement between NRCS and the participant to share in the costs of implementing the Wetland Restoration Plan of Operations.

Riparian areas means areas of land that occur along streams, channels, rivers, and other water bodies. These areas are normally distinctly different from the surrounding lands because of unique soil and vegetation characteristics, may be identified by distinctive

vegetative communities that are reflective of soil conditions normally wetter than adjacent soils, and generally provide a corridor for the movement of wildlife.

Socially disadvantaged farmer or rancher means a farmer or rancher who has been subjected to racial or ethnic prejudices because of their identity as a member of a group without regard to their individual qualities.

State Technical Committee means a committee established by the Secretary of the United States Department of Agriculture (USDA) in a State pursuant to 16 U.S.C. 3861.

Wetland means land that:

- (1) Has a predominance of hydric soils;
- (2) Is inundated or saturated by surface or groundwater at a frequency and duration sufficient to support a prevalence of hydrophytic vegetation typically adapted for life in saturated soil conditions; and
- (3) Supports a prevalence of such vegetation under normal circumstances.

Wetland functions and values means the hydrological and biological characteristics of wetlands and the socioeconomic value placed upon these characteristics, including:

- (1) Habitat for migratory birds and other wildlife, in particular at risk species;
- (2) Protection and improvement of water quality;
- (3) Attenuation of water flows due to flood;
- (4) The recharge of ground water;
- (5) Protection and enhancement of open space and aesthetic quality;
- (6) Protection of flora and fauna which contributes to the Nation's natural heritage; and
- (7) Contribution to educational and scientific scholarship.

Wetland restoration means the rehabilitation of degraded or lost habitat in a manner such that:

- (1) The original vegetation community and hydrology are, to the extent practical, re-established; or
- (2) A community different from what likely existed prior to degradation of the site is established. The hydrology and native self-sustaining vegetation

being established will substantially replace original habitat functions and values and does not involve more than 30 percent of the wetland restoration area.

Wetlands Reserve Plan of Operations (WRPO) means the conservation plan that identifies how the wetland functions and values will be restored, improved, and protected and which is approved by NRCS.

§ 1467.4 Program requirements.

(a) *General.* (1) Under the WRP, NRCS may purchase conservation easements from, or enter into 30-year contracts or restoration cost-share agreements with, eligible landowners who voluntarily cooperate to restore, protect, or enhance wetlands on eligible private and Tribal lands. The 30-year contract enrollment option is only available to acreage owned by Indian Tribes.

(2) To participate in WRP, a landowner must agree to the implementation of a WRPO, the effect of which is to restore, protect, enhance, maintain, and manage the hydrologic conditions of inundation or saturation of the soil, native vegetation, and natural topography of eligible lands. NRCS may provide cost-share assistance through a restoration cost-share agreement or an easement restoration agreement for the conservation practices and activities that promote the restoration, protection, enhancement, maintenance, and management of wetland functions and values. For easement transactions, NRCS may implement such conservation practices and activities through an agreement with the landowner, a contract with a vendor, or a cooperative agreement with a cooperating entity. Specific restoration, protection, enhancement, maintenance, and management actions may be undertaken by the landowner, NRCS, or other designee.

(b) *Acreage limitations.* (1) Except for areas devoted to windbreaks or shelterbelts after November 28, 1990, no more than 25 percent of the total cropland in any county, as determined by the FSA, may be enrolled in the CRP and the WRP, and no more than 10 percent of the total cropland in the county may be subject to an easement acquired through the WRP.

(2) NRCS and FSA shall concur before a waiver of the 25 percent limit of this paragraph can be approved for an easement proposed for enrollment in the WRP. Such a waiver will only be approved if the waiver will not adversely affect the local economy, and operators in the county are having difficulties complying with the conservation plans implemented under 16 U.S.C. 3812.

(c) *Landowner eligibility.* To be eligible to enroll in the WRP, a person, legal entity, or Indian Tribe must be in compliance with the highly erodible land and wetland conservation provisions in 7 CFR part 12. Persons or legal entities must be in compliance with the Adjusted Gross Income Limitation provisions at Subpart G of 7 CFR part 1400, and:

(1) Be the landowner of eligible land for which enrollment is sought;

(2) For easement applications, have been the landowner of such land for the 7-year period prior to the time the land is determined eligible for enrollment unless it is determined by the State Conservationist that:

(i) The land was acquired by will or succession as a result of the death of the previous landowner;

(ii) The ownership change occurred due to foreclosure on the land and the owner of the land immediately before the foreclosure exercises a right of redemption from the mortgage holder in accordance with State law; or

(iii) The land was acquired under circumstances that give adequate assurances, as determined by NRCS, that such land was not acquired for the purposes of placing it in the program, such as demonstration of status as a beginning farmer or rancher.

(3) Agree to provide such information to NRCS as the agency deems necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes.

(d) When a parcel of land that has been accepted for enrollment into the WRP is sold or transferred prior to the easement being perfected, the application or option agreement to purchase will be cancelled and acres will be removed from enrollment. If the new

landowner wishes to continue enrollment, a new application must be filed so that all eligibility criteria may be examined and documented.

(e) *Land eligibility.* (1) Only private land or land owned by Indian Tribes may be considered for enrollment into WRP.

(2) NRCS shall determine whether land is eligible for enrollment and whether, once found eligible, the lands may be included in the program based on the likelihood of successful restoration of wetland functions and values when considering the cost of acquiring the easement and the cost of the restoration, protection, enhancement, maintenance, and management.

(3) Land shall only be considered eligible for enrollment in the WRP if NRCS determines, in consultation with the FWS, that:

(i) The enrollment of such land maximizes wildlife benefits and wetland values and functions;

(ii) Such land is—

(A) Farmed wetland or converted wetland, together with adjacent lands that are functionally dependent on the wetlands; or

(B) Cropland or grassland that was used for agricultural production prior to flooding from the natural overflow of a closed basin lake or pothole, together with the adjacent land, where practicable, that is functionally dependent on the cropland or grassland; and

(iii) The likelihood of the successful restoration of such land and the resultant wetland values merit inclusion of such land in the program, taking into consideration the cost of such restoration.

(4) Land may be considered farmed wetland or converted wetland under paragraph (3)(ii)(A) of this section if such land is identified by NRCS as:

(i) Wetlands farmed under natural conditions, farmed wetlands, prior converted cropland, commenced conversion wetlands, farmed wetland pastures, and lands substantially altered by flooding so as to develop wetland functions and values; or

(ii) Former or degraded wetlands that occur on lands that have been used or are currently being used for the production of food and fiber, including

rangeland and forest production lands, where the hydrology has been significantly degraded or modified and will be substantially restored.

(5) Land under paragraph (e)(3)(ii)(B) of this section may be considered for enrollment into 30-year easements if it meets the criteria under paragraph (e)(3) of this section, it is located in the Prairie Pothole Region as defined under §1467.3 of this part, and the size of the parcel offered for enrollment is a minimum of 20 contiguous acres. Such land meets the requirement of likelihood of successful restoration only if the soils are hydric and the depth of water is 6.5 feet or less.

(6) If land offered for enrollment is determined eligible under paragraph (e)(3) and (e)(5) of this section, then NRCS may also enroll land adjacent or contiguous to such eligible land together with the eligible land, if such land maximizes wildlife benefits and:

(i) Is farmed wetland and adjoining lands enrolled in CRP, with the highest wetland functions and values, and is likely to return to production after it leaves CRP;

(ii) Is a riparian area along streams or other waterways that links or, after restoring the riparian area, will link wetlands which are protected by an easement or other device or circumstance that achieves the same objectives as an easement; or

(iii) Land adjacent to the eligible land that would contribute significantly to wetland functions and values, such as buffer areas, wetland creations, non-cropped natural wetlands, and restored wetlands, but not more than the State Conservationist, in consultation with the State Technical Committee, determines is necessary for such contribution.

(7) To be enrolled in the program, eligible land must be configured in a size and with boundaries that allow for the efficient management of the area for program purposes and otherwise promote and enhance program objectives, as determined by NRCS.

(f) *Enrollment of CRP lands.* Land subject to an existing CRP contract may be enrolled in the WRP only if the land and landowner meet the requirements of this part, and the enrollment is requested by the landowner and agreed to

Commodity Credit Corporation, USDA

§ 1467.6

by NRCS. To enroll in WRP, the CRP contract for the property must be terminated or otherwise modified subject to such terms and conditions as are mutually agreed upon by FSA and the landowner.

(g) *Ineligible land.* The following land is not eligible for enrollment in the WRP:

(1) Converted wetlands if the conversion was commenced after December 23, 1985;

(2) Land that contains timber stands established under a CRP contract or pastureland established to trees under a CRP contract;

(3) Lands owned by an agency of the United States, other than held in trust for Indian Tribes;

(4) Lands owned in fee title by a State, including an agency or a subdivision of a State, or a unit of local government;

(5) Land subject to an easement or deed restriction which, as determined by NRCS, provides similar restoration and protection of wetland functions and values as would be provided by enrollment in WRP; and

(6) Lands where implementation of restoration practices would be undermined due to on-site or off-site conditions, such as risk of hazardous substances either on-site or off-site, proposed or existing rights of way, either on-site or off-site, for infrastructure development, or adjacent land uses, such as airports, that would either impede complete restoration or prevent wetland functions and values from being fully restored.

[74 FR 2328, Jan. 15, 2009, as amended at 74 FR 26284, June 2, 2009]

§ 1467.5 Application procedures.

(a) *Application for participation.* To apply for enrollment, a landowner must submit an Application for Participation in the WRP.

(b) *Preliminary agency actions.* By filing an Application for Participation, the landowner consents to an NRCS representative entering upon the land for purposes of assessing the wetland functions and values, and for other activities, such as the development of the preliminary WRPO, that are necessary or desirable for NRCS to evaluate applications. The landowner is entitled to

accompany an NRCS representative on any site visits.

(c) *Voluntary reduction in compensation.* In order to enhance the probability of enrollment in WRP, a landowner may voluntarily offer to accept a lesser payment than is being offered by NRCS.

§ 1467.6 Establishing priority for enrollment of properties in WRP.

(a) When evaluating easement, 30-year contract, or restoration cost-share agreement offers from landowners, the NRCS, with advice from the State Technical Committee, may consider:

(1) The conservation benefits of obtaining an easement, or other interest in the land;

(2) The cost effectiveness of each easement or other interest in eligible land, so as to maximize the environmental benefits per dollar expended;

(3) Whether the landowner or another person is offering to contribute financially to the cost of the easement or other interest in the land to leverage Federal funds;

(4) The extent to which the purposes of the easement program would be achieved on the land;

(5) The productivity of the land; and

(6) The on-farm and off-farm environmental threats if the land is used for the production of agricultural commodities.

(b) To the extent practicable, taking into consideration costs and future agricultural and food needs, NRCS shall give priority to:

(1) Obtaining permanent easements over shorter term easements; and

(2) Acquiring easements based on the value of the easement for protecting and enhancing habitat for migratory birds and other wildlife, in consultation with FWS.

(c) NRCS, in consultation with the State Technical Committee, may place higher priority on certain geographic regions of the State where restoration of wetlands may better achieve State and regional goals and objectives.

(d) Notwithstanding any limitation of this part, the State Conservationist may, at any time, exclude enrollment of otherwise eligible lands if the participation of the adjacent landowners

is essential to the successful restoration of the wetlands and those adjacent landowners are unwilling or ineligible to participate. The State Conservationist may coordinate with other Federal, State, and nonprofit organizations to encourage the restoration of wetlands on adjacent ineligible lands, especially in priority geographic areas.

(e)(1) The Chief will conduct an assessment during fiscal year 2008 and each subsequent fiscal year for the purpose of determining the interest and allocations for the Prairie Pothole Region to enroll land determined eligible under § 1467.4(d)(5) of this part into 30-year easements. Annually, the Chief will provide specific instructions for the assessment in writing to the applicable State Conservationists.

(2) The Chief will make an adjustment to the allocation for an applicable State for a fiscal year, based on the results of the assessment conducted under paragraph (e)(1) of this section for the State during the previous fiscal year.

§ 1467.7 Enrollment process.

(a) *Tentative Selection.* Based on the priority ranking, NRCS will notify an affected landowner of tentative acceptance into the program.

(b) *Effect of notice of tentative selection.* The notice of tentative acceptance into the program does not bind NRCS or the United States to enroll the proposed project in WRP, nor does it bind the landowner to continue with enrollment in the program. The notice informs the landowner of NRCS' intent to continue the enrollment process on their land unless otherwise notified by the landowner.

(c) *Acceptance and effect of offer of enrollment.*(1) *Easement.* For applications requesting enrollment through an easement, an option agreement to purchase will be presented by NRCS to the landowner, which will describe the easement area; the easement compensation amount; the easement terms and conditions; and other terms and conditions for participation that may be required by NRCS as appropriate. The landowner accepts enrollment in the WRP by signing the option agreement to purchase. NRCS will continue with

easement acquisition activities after the property has been enrolled.

(2) *Restoration cost-share agreement.* For applications requesting enrollment through the restoration cost-share agreement option, a restoration cost-share agreement shall be presented by NRCS to the landowner, which will describe the enrolled area, the agreement terms and conditions, and other terms and conditions for participation that may be required by NRCS as appropriate. The landowner accepts enrollment in the WRP by signing the restoration cost-share agreement. NRCS will proceed with implementation of the WRPO after the property has been enrolled.

(3) *30-year contract.* For applications requesting enrollment through the 30-year contract option, a 30-year contract shall be presented by NRCS to the landowner, which will describe the contract area, the contract terms and conditions, and other terms and conditions for participation that may be required by NRCS as appropriate. The landowner accepts enrollment in the WRP by signing the 30-year contract. NRCS will proceed with implementation of the WRPO after the property has been enrolled.

(d) *Restoration responsibility and the scope of enrollment.* (1) The enrollment document establishes the terms of enrollment consistent with the terms and conditions of this part, and identifies the:

(i) Scope of the agreement between NRCS and the landowner;

(ii) Basis for NRCS to obligate funds; and

(iii) Nature and method through which NRCS will provide WRP technical and financial assistance to the landowner.

(2) The option agreement to purchase between NRCS and the landowner under the easement option constitutes the agreement for:

(i) Granting an easement on the enrolled land as set forth under § 1467.11;

(ii) Implementing a WRPO which provides for the restoration and protection of the functions and values of wetlands;

(iii) Recording the easement in accordance with applicable State law; and

(iv) Ensuring the title to the easement is superior to the rights of all others, except for exceptions to the title that are deemed acceptable by NRCS.

(3) The terms of the easement identified in paragraph (d)(2)(i) of this section includes the landowner's agreement to the implementation of a WRPO identified in paragraph (d)(2)(ii) of this section. In particular, the easement deed identifies that NRCS has the right to enter the easement area to undertake, on a cost-share basis with the landowner or other entity, any activities to restore, protect, manage, maintain, enhance, and monitor the wetland and other natural values of the easement area.

(4) At the time NRCS enters into an agreement to purchase, NRCS agrees, subject to paragraph (e) of this section, to acquire and provide for restoration of the land enrolled into the program.

(e) *Withdrawal of offer of enrollment* Prior to execution of the easement deed by the United States and the landowner, NRCS may withdraw the land from enrollment at any time due to lack of availability of funds, inability to clear title, sale of the land, risk of hazardous substance contamination, or other reasons. The offer of enrollment to the landowner shall be void if not executed by the landowner within the time specified.

[74 FR 2328, Jan. 15, 2009, as amended at 74 FR 26284, June 2, 2009]

§ 1467.8 Compensation for easements and 30-year contracts.

(a) *Determination of easement payment rates.* (1) Compensation for an easement under this part shall be made in cash in such amount as is agreed to and specified in the option agreement to purchase or 30-year contract.

(2) Payments for non-permanent easements or 30-year contracts shall be not more than 75 percent of that which would have been paid for a permanent easement as determined by the methods listed in paragraph (a)(3) of this section.

(3) NRCS shall pay as compensation the lowest of the following:

(i) The fair market value of the land using the Uniform Standards for Professional Appraisal Practices, or based

on an area-wide market analysis or survey;

(ii) The geographic area rate cap determined under paragraph (a)(4) of this section; or

(iii) The landowner offer.

(4) The State Conservationist, in consultation with the State Technical Committee, shall establish one or more geographic area rate caps within a state. The State Conservationist shall submit geographic area rate caps and supporting documentation to the Chief for approval. Each State Conservationist will determine the geographic area rate cap using the best information which is readily available in that State. Such information may include: Soil types, type(s) of crops capable of being grown, production history, location, real estate market values, and tax rates and assessments.

(b) *Acceptance of offered easement compensation.* (1) NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment offered by NRCS. The easement payment may or may not equal the fair market value of the interests and rights to be conveyed by the landowner under the easement. By voluntarily participating in the program, a landowner waives any claim to additional compensation based on fair market value.

(2)(i) For easements or 30-year contracts valued at \$500,000 or less, NRCS will provide compensation in up to 30 annual payments, as requested by the participant, as specified in the option agreement to purchase or 30-year contract between NRCS and the participant.

(ii) For easements or 30-year contracts valued at more than \$500,000, the Secretary may provide compensation in at least 5, but not more than 30 annual payments. NRCS may provide compensation in a single payment for such easements or 30-year contracts when, as determined by the Chief, it would further the purposes of the program. The applicable payment schedule will be specified in the option agreement to purchase, warranty easement deed, or 30-year contract between NRCS and the participant.

(c) *Reimbursement of a landowner's expenses.* For completed easement conveyances, NRCS will reimburse participants for their fair and reasonable expenses, if any, incurred for legal boundary surveys and other related costs, as determined by NRCS. The State Conservationist, in consultation with the State Technical Committee, may establish maximum payments to reimburse participants for reasonable expenses, if incurred.

(d) *Tax implications of easement conveyances.* Subject to applicable regulations of the Internal Revenue Service, a participant may be eligible for a bargain sale tax deduction which is the difference between the fair market value of the easement conveyed to the United States and the easement payment made to the participant. NRCS disclaims any representations concerning the tax implications of any easement or cost-share transaction.

(e) *Per acre basis calculations.* If easement payments are calculated on a per acre basis, adjustment to stated easement payment will be made based on final determination of acreage.

§ 1467.9 Wetlands Reserve Enhancement Program.

(a) *Wetlands Reserve Enhancement Program (WREP).* (1) The purpose of WREP is to target and leverage resources to address high priority wetlands protection, restoration, and enhancement objectives through agreements with States (including a political subdivision or agency of a State), nongovernmental organizations, and Indian Tribes.

(2) Funding for WREP agreements will be announced in the FEDERAL REGISTER.

(i) The announcement will provide details on the priorities for funding, required level of partner matching funds, ranking criteria, level of available funding, and additional criteria as determined by the Chief.

(ii) The Chief will determine the funding level for WREP on an annual basis. Funds for WREP are derived from funds available for WRP.

(3) Proposals will be submitted to the State Conservationist of the State in which the majority of the project area resides.

(i) State Conservationists will evaluate proposals based on the ranking criteria established in the announcement and provide proposals recommended for funding to the Chief.

(ii) The Chief will evaluate proposals recommended for funding and make final funding selections, in accordance with ranking factors identified in the announcement.

(4) Selected proposals and associated funding will be provided to the State Conservationist to enter into WREP agreements with the eligible partner to carry out the project.

(b) *Reserved Rights Pilot.* (1) The Chief shall carry out a reserved rights pilot subject to the requirements established in this part.

(2) Under the reserved rights pilot, a landowner may reserve grazing rights in the warranty easement deed or 30-year contract, if the State Conservationist determines that the reservation and use of the grazing rights:

(i) Is compatible with the land subject to the easement or 30-year contract; and

(ii) Is consistent with the long-term wetland protection and enhancement goals for which the easement or 30-year contract was established; and

(iii) Complies with a WRPO developed with NRCS.

(3) The State Conservationist will provide public notice of the availability of the reserved rights pilot and the reserved rights template deed or 30-year contract, approved by the Chief, to be used in the pilot.

(4) Compensation for easements or 30-year contracts entered into under the reserved rights pilot will be based on the method described in §1467.8 with the following exceptions:

(i) Section 1467.8(a)(3)(i) is adjusted to reduce the fair market value of the land by an amount equal to the value of the retained grazing rights as determined by a Uniform Standards for Professional Appraisal Practices appraisal or a market survey; and

(ii) Section 1467.8(a)(3)(ii) is adjusted to reduce the geographic area rate cap determined as described in §1467.8(a)(4) by an amount equal to the value of the retained grazing rights.

§ 1467.10 Cost-share payments.

(a) NRCS may share the cost with participants of implementing the WRPO on the enrolled land. The amount and terms and conditions of the cost-share assistance shall be subject to the following restrictions on the costs of establishing or installing conservation practices or activities specified in the WRPO:

(1) On enrolled land subject to a permanent easement, NRCS will offer to pay at least 75 percent but not more than 100 percent of such costs; and

(2) On enrolled land subject to a non-permanent easement, 30-year contract, or restoration cost-share agreement, NRCS will offer to pay at least 50 percent but not more than 75 percent of such costs.

(3) The total amount of payments that a person or legal entity may receive, directly or indirectly, for one or more restoration cost-share agreements, for any year, may not exceed \$50,000.

(b) Cost-share payments may be made only upon a determination by NRCS that an eligible conservation practice or component of the conservation practice has been implemented in compliance with appropriate NRCS standards and specifications; or an eligible activity has been implemented in compliance with the appropriate requirements detailed in the WRPO. Identified conservation practices or activities may be implemented by the participant, NRCS, or other NRCS designee.

(c) Cost-share payments may be made for replacement of an eligible conservation practice, if NRCS determines that the practice is still needed and that the failure of the original conservation practice was due to reasons beyond the control of the participant.

(d) A participant may seek additional cost-share assistance from other public or private organizations as long as the conservation practices or activities funded are in compliance with this part. In no event shall the participant receive an amount that exceeds 100 percent of the total actual cost of the restoration.

[74 FR 2328, Jan. 15, 2009, as amended at 74 FR 26284, June 2, 2009]

§ 1467.11 Easement and 30-year contract participation requirements.

(a) *Easement requirements.* (1) To enroll land in WRP through the permanent or non-permanent easement option, a landowner shall grant an easement to the United States. The easement shall require that the easement area be maintained in accordance with WRP goals and objectives for the duration of the term of the easement, including the restoration, protection, enhancement, maintenance, and management of wetland and other land functions and values.

(2) For the duration of its term, the easement shall require, at a minimum, that the participant, and the participant's heirs, successors and assigns, shall, consistent with the terms of this part, cooperate in the restoration, protection, enhancement, maintenance, and management of the land in accordance with the warranty easement deed and with the terms of the WRPO. In addition, the easement shall grant to the United States, through NRCS:

(i) A right of access to the easement area;

(ii) The right to permit compatible uses of the easement area, including such activities as hunting and fishing, managed timber harvest, or periodic haying or grazing, if such use is consistent with the long-term protection and enhancement of the wetland resources for which the easement was established;

(iii) All rights, title and interest in the easement area; and

(iv) The right to restore, protect, enhance, maintain, and manage activities on the easement area.

(3) The participant shall convey title to the easement in a manner that is acceptable to NRCS. The participant shall warrant that the easement granted to the United States is superior to the rights of all others, except for exceptions to the title that are deemed acceptable by NRCS.

(4) The participant shall:

(i) Comply with the terms of the easement;

(ii) Comply with all terms and conditions of any associated contract or agreement;

(iii) Agree to the permanent retirement of any existing cropland base and

§ 1467.12

allotment history for the easement area under any program administered by the Secretary, as determined by the FSA;

(iv) Agree to the long-term restoration, protection, enhancement, maintenance, and management of the easement in accordance with the terms of the easement and related agreements;

(v) Have the option to enter into an agreement with governmental or private organizations to assist in carrying out any participant responsibilities on the easement area; and

(vi) Agree that each person or legal entity that is subject to the easement shall be jointly and severally responsible for compliance with the easement and the provisions of this part and for any refunds or payment adjustment which may be required for violation of any terms or conditions of the easement or the provisions of this part.

(b) *30-year contract requirements.* (1) To enroll land in WRP through the 30-year contract option, a landowner shall enter into a contract with NRCS. The contract shall require that the enrolled area be maintained in accordance with WRP goals and objectives for the duration of the contract, including the restoration, protection, enhancement, maintenance, and management of wetland and other land functions and values.

(2) For the 30-year duration, the contract shall require, at a minimum, that the participant, and the participant's heirs, successors and assigns, shall, consistent with the terms of this part, cooperate in the restoration, protection, enhancement, maintenance, and management of the land in accordance with the contract and with the terms of the WRPO. In addition, the contract shall grant to NRCS:

(i) A right of access to the contract area;

(ii) The right to permit compatible uses of the contract area, including such activities as a traditional Tribal use of the land, hunting and fishing, managed timber harvest, or periodic haying or grazing, if such use is consistent with the long-term protection and enhancement of the wetland resources for which the contract was established; and

7 CFR Ch. XIV (1-1-10 Edition)

(iii) The right to restore, protect, enhance, maintain, and manage activities on the enrolled area.

(3) The participant shall:

(i) Comply with the terms of the contract;

(ii) Comply with all terms and conditions of any associated agreement;

(iii) Agree to the long-term restoration, protection, enhancement, maintenance, and management of the enrolled area in accordance with the terms of the contract and related agreements;

(iv) Have the option to enter into an agreement with governmental or private organizations to assist in carrying out any participant responsibilities on the enrolled area;

(v) Agree that each person or legal entity that is subject to the contract shall be jointly and severally responsible for compliance with the contract and the provisions of this part and for any refunds or payment adjustment which may be required for violation of any terms or conditions of the contract or the provisions of this part.

[74 FR 2328, Jan. 15, 2009, as amended at 74 FR 26284, June 2, 2009]

§ 1467.12 The WRPO development.

(a) The development of the WRPO will be made through the local NRCS representative, in consultation with the State Technical Committee, with consideration of site-specific technical input from FWS and the Conservation District.

(b) The WRPO will specify the manner in which the enrolled land shall be restored, protected, enhanced, maintained, and managed to accomplish the goals of the program. The WRPO will be developed to ensure that cost-effective restoration and maximization of wildlife benefits and wetland functions and values will result. Specifically, the WRPO will consider and address, to the extent practicable, the on-site alterations and the off-site watershed conditions that adversely impact the hydrology and associated wildlife and wetland functions and values. NRCS will review, revise, and supplement the WRPO as needed throughout the duration of the enrollment to ensure that

Commodity Credit Corporation, USDA

§ 1467.15

program goals are fully and effectively achieved.

[74 FR 2328, Jan. 15, 2009, as amended at 74 FR 26285, June 2, 2009]

§ 1467.13 Modifications.

(a) *Easements*. (1) After an easement has been recorded, no modification will be made in the easement except by mutual agreement with the Chief and the participant. The Chief will consult with FWS and the Conservation District prior to making any modifications to easements.

(2) Approved modifications will be made only in an amended easement, which is duly prepared and recorded in conformity with standard real estate practices, including requirements for title approval, subordination of liens, and recordation.

(3) The Chief may approve modifications to facilitate the practical administration and management of the easement area or the program so long as the modification will not adversely affect the wetland functions and values for which the easement was acquired or when adverse impacts will be mitigated by enrollment and restoration of other lands that provide greater wetland functions and values at no additional cost to the government.

(4) Modifications must result in equal or greater environmental and economic values to the United States and address a compelling public need, as determined by the Chief.

(b) *WRPO*. Insofar as is consistent with the easement and applicable law, the State Conservationist may approve modifications to the WRPO that do not affect provisions of the easement in consultation with the participant and with consideration of site specific technical input from the FWS and the Conservation District. Any WRPO modification must meet WRP regulations and program objectives, comply with the definition of wetland restoration as defined in §1467.3, must result in equal or greater wildlife benefits, wetland functions and values, and ecological and economic values to the United States.

§ 1467.14 Transfer of land.

(a) *Offers voided*. Any transfer of the property prior to the enrollment of the

easement, 30-year contract, or restoration cost-share agreement contract, including the landowner entering into a contract or purchase agreement to sell the land subject to offer, shall void the offer of enrollment.

(b) *Payments to landowners*. For easements with multiple annual payments, any remaining easement payments will be made to the original participant unless NRCS receives an assignment of proceeds.

(c) *Claims to payments*. With respect to any and all payments owed to participants, NRCS shall bear no responsibility for any full payments or partial distributions of funds between the original participant and the participant's successor. In the event of a dispute or claim on the distribution of cost-share payments, NRCS may withhold payments without the accrual of interest pending an agreement or adjudication on the rights to the funds.

§ 1467.15 Violations and remedies.

(a) *Easement violations*. (1) In the event of a violation of the easement, 30-year contract, or any restoration cost-share agreement involving the participant, the participant shall be given reasonable notice and an opportunity to voluntarily correct the violation within 30 days of the date of the notice, or such additional time as the State Conservationist determines is necessary to correct the violation at the landowner's expense.

(2) Notwithstanding paragraph (a)(1) of this section, NRCS reserves the right to enter upon the easement area at any time to remedy deficiencies or easement violations. Such entry may be made at the discretion of NRCS when such actions are deemed necessary to protect important wetland functions and values or other rights of the United States under the easement. The participant shall be liable for any costs incurred by the United States as a result of the participant's negligence or failure to comply with easement or contractual obligations.

(3) At any time there is a material breach of the easement covenants or any associated agreement, the easement shall remain in force and NRCS may withhold or require the refund of any easement and cost-share payments

§ 1467.16

owed or paid to participants. Such withheld or refunded funds may be used to offset costs incurred by the United States in any remedial actions or retained as damages pursuant to court order or settlement agreement. This remedy is in addition to any and all legal or equitable remedies available to the United States under applicable Federal or State law.

(4) The United States shall be entitled to recover any and all administrative and legal costs, including attorney's fees or expenses, associated with any enforcement or remedial action.

(b) *30-year Contract and Restoration Cost-Share Agreement violations.* (1) If the NRCS determines that a participant is in violation of the terms of a 30-year contract, or restoration cost-share agreement, or documents incorporated by reference into the 30-year contract or restoration cost-share agreement, the participant shall be given reasonable notice and an opportunity to voluntarily correct the violation within 30 days of the date of the notice, or such additional time as the State Conservationist determines is necessary to correct the violation. If the violation continues, the State Conservationist may terminate the 30-year contract or restoration cost-share agreement.

(2) Notwithstanding the provisions of paragraph (b)(1) of this section, a restoration cost-share agreement or 30-year contract termination is effective immediately upon a determination by the State Conservationist that the participant has:

- (i) Submitted false information;
- (ii) Filed a false claim;
- (iii) Engaged in any act for which a finding of ineligibility for payments is permitted under this part; or
- (iv) Taken actions NRCS deems to be sufficiently purposeful or negligent to warrant a termination without delay.

(3) If NRCS terminates a restoration cost-share agreement or 30-year contract, the participant will forfeit all rights for future payments under the restoration cost-share agreement or 30-year contract, and must refund all or part, as determined by NRCS, of the payments received, plus interest.

7 CFR Ch. XIV (1–1–10 Edition)

§ 1467.16 Payments not subject to claims.

Any cost-share, contract, or easement payment or portion thereof due any person under this part shall be allowed without regard to any claim or lien in favor of any creditor, except agencies of the United States Government.

§ 1467.17 Assignments.

Any person entitled to any cash payment under this program may assign the right to receive such cash payments, in whole or in part.

§ 1467.18 Appeals.

(a) A person participating in the WRP may obtain a review of any administrative determination concerning eligibility for participation utilizing the administrative appeal regulations provided in 7 CFR part 614.

(b) Before a person may seek judicial review of any administrative action taken under this part, the person must exhaust all administrative appeal procedures set forth in paragraph (a) of this section, and for purposes of judicial review, no decision shall be a final Agency action except a decision of the Chief of the NRCS under these procedures.

(c) Any appraisals, market analysis, or supporting documentation that may be used by the NRCS in determining property value are considered confidential information, and shall only be disclosed as determined at the sole discretion of the NRCS in accordance with applicable law.

(d) Enforcement actions undertaken by the NRCS in furtherance of its federally held property rights are under the jurisdiction of the federal courts and not subject to review under administrative appeal regulations.

§ 1467.19 Scheme and device.

(a) If it is determined by the NRCS that a participant has employed a scheme or device to defeat the purposes of this part, any part of any program payment otherwise due or paid such participant during the applicable period may be withheld or be required to be refunded with interest thereon, as determined appropriate by NRCS.
